venkatesh.badarli46@gmail.com

PROFILE

Motivated Data Science student with a strong foundation in Python, Data Analysis, and basic C

Education

Bachelors of Computer Engineering(Data Science) Sep 2025 - Present
Ballari Institute Of Technology And Management, Ballari

PUC, Class XII April 2025
Nandi International, Ballari, Karnataka, 87%

SSLC, Class X March 2023
St. Philomena's , Ballari, Karnataka, 92%

SKILLS

Programming Languages : Python, Programming in C, Java(Basics)
Soft Skills : Communication, Teamwork, Problem Solving, Time Management

Tools Used

VS Code

GitHub

Chat GPT

Gemini

PROJECTS

Portable Phone Sanitizer BoxMini Project

Designed a compact, portable UV sanitizer box to rapidly disinfect mobile phones and small personal items, eliminating Surface pathogens without using liquid chemicals or high heat.

Utilizes UV-C germicidal irradiation (254 nm wavelength) to penetrate microorganism cell walls and disrupt their DNA/RNA structure—destroying their ability to replicate—paired with a microcontroller-based timer to safely automate exposure cycles and prevent UV leakage.

Automatic Street Light Control SystemMini Project

Designed an automated lighting controller to toggle street lights based on real-time ambient light levels, eliminating manual operation and optimizing energy usage.

Utilized an LDR-based potential divider network and comparator/transistor switching to detect daylight changes—triggering the circuit ON at dusk via high LDR resistance and OFF at dawn via low LDR resistance.

CERTIFICATIONS

Internship in C

Participation in Hackathon
